PROJECT TITLE

Employee Performance Analysis using Excel

AGENDA

1. Problem Statement
2. Project Overview
3. End Users
4. Our Solution and Proposition
5. Dataset Description
6. Modelling Approach
7. Results and Discussion
8. Conclusion

PROBLEM STATEMENT

A problem statement is a clear and concise description of the problem or issue a team aims to address in a project.

PROJECT OVERVIEW

project overview is a detailed description of a project's goals and objectives, the steps to achieve these goals, and the expected outcomes.

WHO ARE THE END USERS?

anybody who owns or works with a Windows machine or uses MS Office tools such as Word, Excel, or PowerPoint.

OUR SOLUTION AND ITS VALUE PROPOSITION

The Basic solution is the perfect package to get started with data analysis.

Dataset Description

- First, we must go to "File", and then "Options."

- Next, we need to go to "Add-ins."

- We may see all the inactive applications under "Add-ins" on the right-hand side. Select "Analysis Toolpak", and click "Go."

THE "WOW" IN OUR SOLUTION

The "wow" in a solution can refer to a "wow moment" or "wow factor", which is an experience that exceeds customer expectations and improves their lives:

MODELLING

Excel modeling is the process where an individual uses a spreadsheet to make quantitative predictions based on a series of underlying assumptions.

RESULTS

we type =TRUE() in a cell, we get the result
as TRUE.

Edit with WPS Office

conclusion

It make work efficient and easier for people working in larger firms.
It stores data and analyzes numerical information easily and saves plenty of time.
